See General Instructions for block size and sun piecing instructions.

All pattern pieces are already reversed. Trace pieces onto fusible web. Be sure to extend pieces into the seam allowance as shown. Applique pieces onto the block making sure to stay within the $6\frac{1}{2}$ " block. You can flip the pattern over and place the background fabric over it for placement - use a light box if needed.

Use the striped yellow unit to cut the sun from (see General Instructions). Cut each sun ray from a different yellow fabric. Hand embroider the eyes and mouth.

Remember to trim your block to $6\frac{1}{2}$ " when you are finished.
